

The 2nd Korea-Africa Day

Invitation

The first Korea-Africa Day held in 2012 successfully mobilized opinions revolving around the power of education as a driving force of national development. Since the first Korea-Africa Day, Korea has endeavored to solidify its relationships with African countries and generated fruitful outcomes. Nonetheless, given the current global and local dynamics and needs, it is time for Korea and partner African countries to review the progress, assess the effectiveness, and recommend viable options for mutual efforts. This second Korea-Africa Day will open new windows for further progress by building up amicable relations between Korea and not only its traditional partners but also its newly emerging partners in Africa.
